

A reflection on the week by Mary Arthur

(With thanks to The Beatles who gave us 'Eight days a week')

IS IT REALLY ONLY A WEEK.....?

- Since children sat at desks learning with their teachers and friends
- Since we were preparing, but mostly unafraid
- Since we met, carefully, at a safe distance for prayer
- Since we thought it was 'over there' and wouldn't really be 'over here'

BUT WHAT A WEEK.....

- Some families face separation and grief. May they know God's comfort.
- Following good practice, keeping safe distance, good neighbours are all around.
- Volunteers are responding to 'do their bit'.
- The telephone and broadband networks buzz, - and crash!- with those working from home and those keeping in touch.
- The sun has shone, the buds on the trees swell day by day, easily spotted on the walk that follows the same route.
- The warmth of Spring has been felt in the afternoon. The year is on the turn. The wonder of Creation is real and with us.

PRAISE GOD!
